## SUMMARY

Highly motivated and skilled Web Developer with a proven track record of successful internships and projects. Demonstrated expertise in designing, developing, and implementing web applications, showcasing a comprehensive skill set in both front-end and back-end technologies.

## EDUCATION

**Sandip Institute of Engineering & Management, Nashik.**                    **CGPA: 8.56**
*Bachelor of Engineering in Information Technology*                             *2019-2023*

**G.M.D. College of Science, Sinnar, Maharashtra.**                   **Percentage: 54.46**
*Higher Secondary Certificate*                                                *2018 - 2019*

**Navjeevan Day School, Sinnar , Maharashtra.**                       **Percentage: 79.60**
*Secondary School Certificate*                                                *2016 - 2017*

## INTERNSHIP

**Full Stack Development Trainee**                                   **July 2023 - Jan 2023**
*JSpiders*                                                                        *Onsite*

- Engaged in a dynamic and immersive training focused on honing skills as a **Full-stack Java Developer.**

- Provided extensive training and hands-on experience in a variety of technologies essential for modern web development. Key areas of focus included Java, Hibernate, JDBC, SQL, J2EE, HTML, CSS, JavaScript, Bootstrap, and Tailwind CSS.

**Web Development Intern**                                           **April 2022 - May 2022**
*Spark Foundation*                                                                *Remote*

- Engaged in an impactful internship focused on **Web development**, where the primary assignment involved designing and building a dynamic banking website.

- The internship provided practical experience in developing robust and secure web applications, with a specific emphasis on creating a feature-rich banking platform.

## PROJECTS

**Employee Management System** ⬀ | Java , Hibernate, SQL

- Designed and implemented a comprehensive Employee Management System using Java and Hibernate, aimed at streamlining HR processes and enhancing organizational efficiency.

- Implemented Hibernate ORM (Object-Relational Mapping) to facilitate smooth interaction between the Java application and the underlying relational database.

**Student Management System** ⬀ | Java, JDBC, SQL

- **Developed a robust Student Management System using Java and JDBC.** The project focused on implementing CRUD (Create, Read, Update, Delete) operations for student records, providing an efficient and user-friendly platform for managing student information.

- Established a reliable connection to the underlying relational database using Java Database Connectivity (JDBC)

**Paarsh Infotech - Clone** ⬀ | HTML, CSS, BootStrap, JS

- **Designed and implemented a functional clone of the Paarsh Infotech website.** The goal was to recreate the visual and interactive elements of the original website while incorporating modern web development technologies to enhance the user experience.

- Implemented a responsive design using HTML, CSS, and Bootstrap, ensuring optimal viewing experiences across various devices and screen sizes.

## TECHNICAL SKILLS

**Languages/DB:** Java, C, C++, SQL, Php, MySQL, HTML, CSS, Js.
**Technologies/Tools:** Web development, GitHub, Git.
**Libraries/Frameworks:** Hibernate, Bootstrap, Tailwind css.
